

To All Mixed Martial Arts Promoters:

At the annual meeting of the Association of Boxing Commissions (ABC), final preparations were made for the launch of the Official Mixed Martial Arts Registry. As of July 1, 2008, the database of official records and suspensions is up and running!

All state and tribal commissions in the United States, as well as the provincial, municipal and tribal commissions in Canada have agreed that Mixed Martial Arts LLC would be the first official record keeper in the sport. All results and suspension information from these commissions will be reported exclusively to Mixed Martial Arts LLC, as detailed below.

Each promoter in <insert here> should register his/her promotion with Mixed Martial Arts LLC. By registering your event, proposed matches will be sent to this office for consideration. You will be immediately notified if a proposed contestant is on suspension, and the length of that suspension or what type of medical needs to be completed.

In order to officially register your event:

1. Go to <http://abc.mixedmartialarts.com>
2. Click the Request Promoters Credentials link.
3. This takes you to <http://abc.mixedmartialarts.com/?fa=login.Requestcreds>

After you have registered with Mixed Martial Arts LLC, you will be provided with details on registering your events, developing your bouts and the fee structure. This system will be a benefit to you in the future. Since Mixed Martial Arts LLC is the only official Mixed Martial Arts registry, it is imperative for the safety and progress of the sport, that all information is supplied to and received from the database.

Each contestant must be issued a Mixed Martial Art National identification card and number. Contestants must bring this identification card with them regardless of where they participate across North America. Out-of-state competitors can be issued in <State, Tribe, Province, or Municipality>.

If you have any questions, please contact my office.

Sincerely,
South Carolina
